The most popular repair involves replacing a broken or bent pointer, this repair costs \$185.00. This will include a new roll of chart paper and re-calibration.

However, we can not give a firm price for repair without first evaluating the recorder.

Tape your business card or some ID to your recorder and send it to us. We will evaluate it and fax or email a firm price quote for the cost of the repair and parts before we start working on it. Our usual turn around time is 1-2 days after your approval.

No charge for the evaluation. If you decide not to have us repair it, we will return it at no cost to you.

Send your recorder via UPS, Fed-X or US Mail to:
